

Sorellon Limited — Capability Statement

UK public-sector supply · Sourcing, documentation and delivery

About Us

Sorellon Limited is a UK-based goods supplier for government, healthcare, education and other public-sector buyers. We work to clear specifications, disclose dependencies and provide the product evidence available for each requirement.

Our approach is simple: straightforward products, serious delivery. Every order is managed by a named UK contact with full accountability from enquiry to delivery, supported by a responsive global supply chain and a strict focus on documentation accuracy and performance reporting.

Sorellon is an early-stage supplier. We do not claim public-sector contract history that we cannot evidence. Our current focus is building a documented, bid-ready supply chain and competing first for proportionate, product-led opportunities.

Mission & Values

- **Integrity:** Honest pricing, traceable supply and open communication.
- **Responsiveness:** Quotes within 24 hours, status updates throughout fulfilment.
- **Reliability:** Document-controlled quotes, orders, delivery records, and specification-matched QA evidence.
- **Accountability:** A named UK contact — no call centres, no delays.

Core Capabilities

1) Product Supply and Procurement Fit

- A vetted global supplier network, assessed against each requirement.
- Active monitoring of Find a Tender, Contracts Finder, devolved portals, and local-authority opportunities.
- Product research and technical data collation for tender compliance.
- Supplier due diligence, ethical checks and sustainability evidence where required.

2) Compliance & Quality Assurance

- Independent ISO 9001 and ISO 14001 certification is not currently held; certification status is disclosed accurately in every bid.
- CE/UKCA evidence, safety data sheets, and certificates of conformity are obtained where the product and specification require them.
- Supplier, batch, and delivery traceability requirements are agreed before quotation or award.
- Samples, third-party inspection, and test reports can be arranged where available and proportionate.

3) Logistics & Fulfilment

- Third-party UK warehousing and consolidation can be arranged for multi-line orders.
- Air and sea freight, customs clearance, and duties can be coordinated through appointed logistics partners.
- Stockholding and scheduled call-off options are subject to contract, forecast, and agreed finance.
- Tracked delivery and proof of delivery are specified with the selected carrier.

4) Contract Readiness & Procurement Experience

- Registered on core UK procurement portals and building evidence through live market engagement and proportionate RFQs.
- Flexible on terms: standard 30-day payment, longer for framework authorities.
- An information-security policy is maintained; Cyber Essentials certification is not currently held.
- Portal, policy, and product-documentation gaps are disclosed rather than represented as completed.

5) Product Categories

- **Medical & Hygiene:** Disposable wipes, syringes, catheters, gloves, disinfectants, PPE.
- **Facilities & Janitorial:** Cleaning kits, bin liners, mops, buckets, floor consumables.
- **Education & Office:** Stationery, teaching aids, storage solutions, safety products.
- **Infrastructure & Trade:** Paint kits, tools, tapes, protective coatings, light consumables.
- **Sustainability Line:** Eco-friendly wipes, biodegradable packaging, and low-carbon shipping options.

Added Value Services

- Custom packaging and private labelling for framework or brand compliance.

- Consolidated invoicing for simplified procurement processing.
- On-demand technical datasheets and sample submission for evaluation.
- Product substitution and equivalent matching to meet specification or budget targets.

Key Differentiators

- **Public Sector Focus:** Built exclusively for institutional buyers.
- **Fast Triage:** Initial RFQ response within one business day; delivery dates are confirmed only after supplier and freight checks.
- **Evidence First:** Product claims are supported by the documents required for the specific contract.
- **Low Overheads:** A lean structure supports competitive, transparent pricing.
- **Flexible Supply:** Options from a vetted global supplier network are evaluated for quality, evidence, landed cost and lead time.

Sustainability & Social Value

- Supporting the UK government's net zero and local growth agenda.
- Requesting consolidated and lower-emission freight options where practical; no offset claim is made without evidence.
- Prioritising recyclable and biodegradable materials where viable.
- Promoting ethical labour and fair-trade practices in supplier selection.
- Supporting small British manufacturers through blended supply models.

Our Promise

- **Rapid Response:** Quotes within 24 hours.
- **Transparency:** Clear, fixed pricing and open communication.
- **Reliability:** Clear responsibility from quotation through delivery, with dependencies disclosed.
- **Compliance:** Specification-relevant evidence supplied before commitments are made.
- **Accountability:** Named UK contact throughout every project.
